TSELISHCHEVA

CREATIVE PRODUCER | EXHIBITION & SPATIAL PRODUCTION

PORTFOLIO

2026

KIRA IULIA TSELISHCHEVA

Creative producer with 8+ years of experience delivering exhibitions, media art installations and spatial environments across Europe.

My work focuses on the production and spatial realization of artistic concepts – from exhibition environments and installations to immersive and event-based projects.

With a background in architecture and cultural studies, I approach projects through spatial thinking, production planning and on-site execution, collaborating with artists, curators and technical teams.

EDUCATION

Università degli Studi di Milano:
M.A. Cultural, Intellectual and visual history.

Herzen University:
B. A. Culturology & Theatrical Pedagogy.

MEDIA ART | EXHIBITIONS

INSTRUMENTS OF PERCEPTION

Media Art Exhibition
Georgia, 2025

International media art exhibition presented across two locations in Georgia.
The project explored relationships between digital media, cultural heritage and spatial perception through installations and multimedia environments.

ROLE

Curator | Exhibition production | Spatial organization | Installation supervision

Media Art Exhibition
Milan, 2025

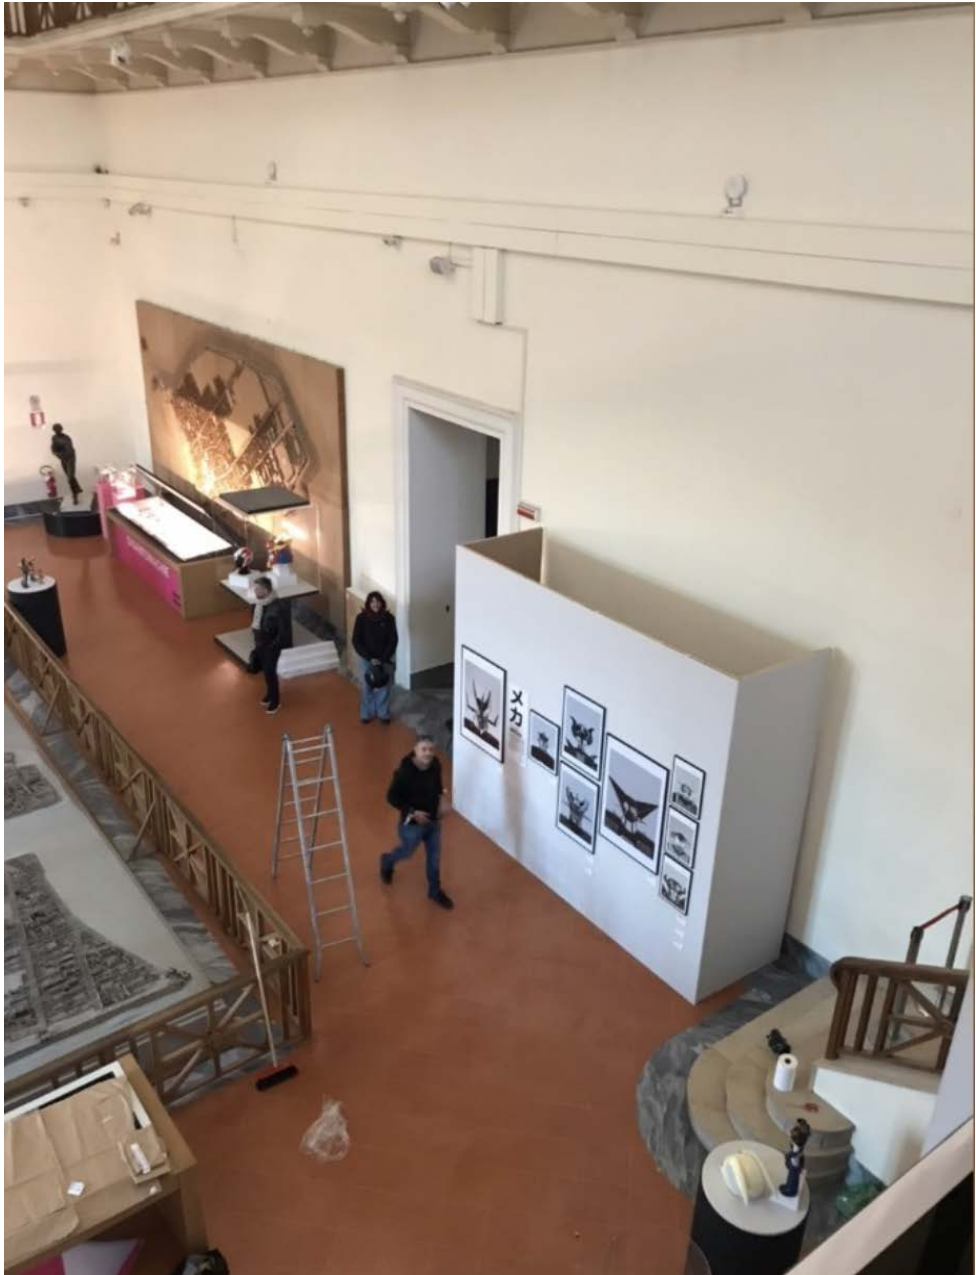

Contemporary art exhibition bringing together more than twenty international artists working with video, installation and digital media. The exhibition was presented across two venues in Milan.

ROLE

Curatorial coordination | Exhibition production | Installation management

MANGA HEROES

JAPANESE ART EXHIBITION
NATIONAL ARCHAEOLOGICAL MUSEUM OF NAPLES
NAPLES, 2022

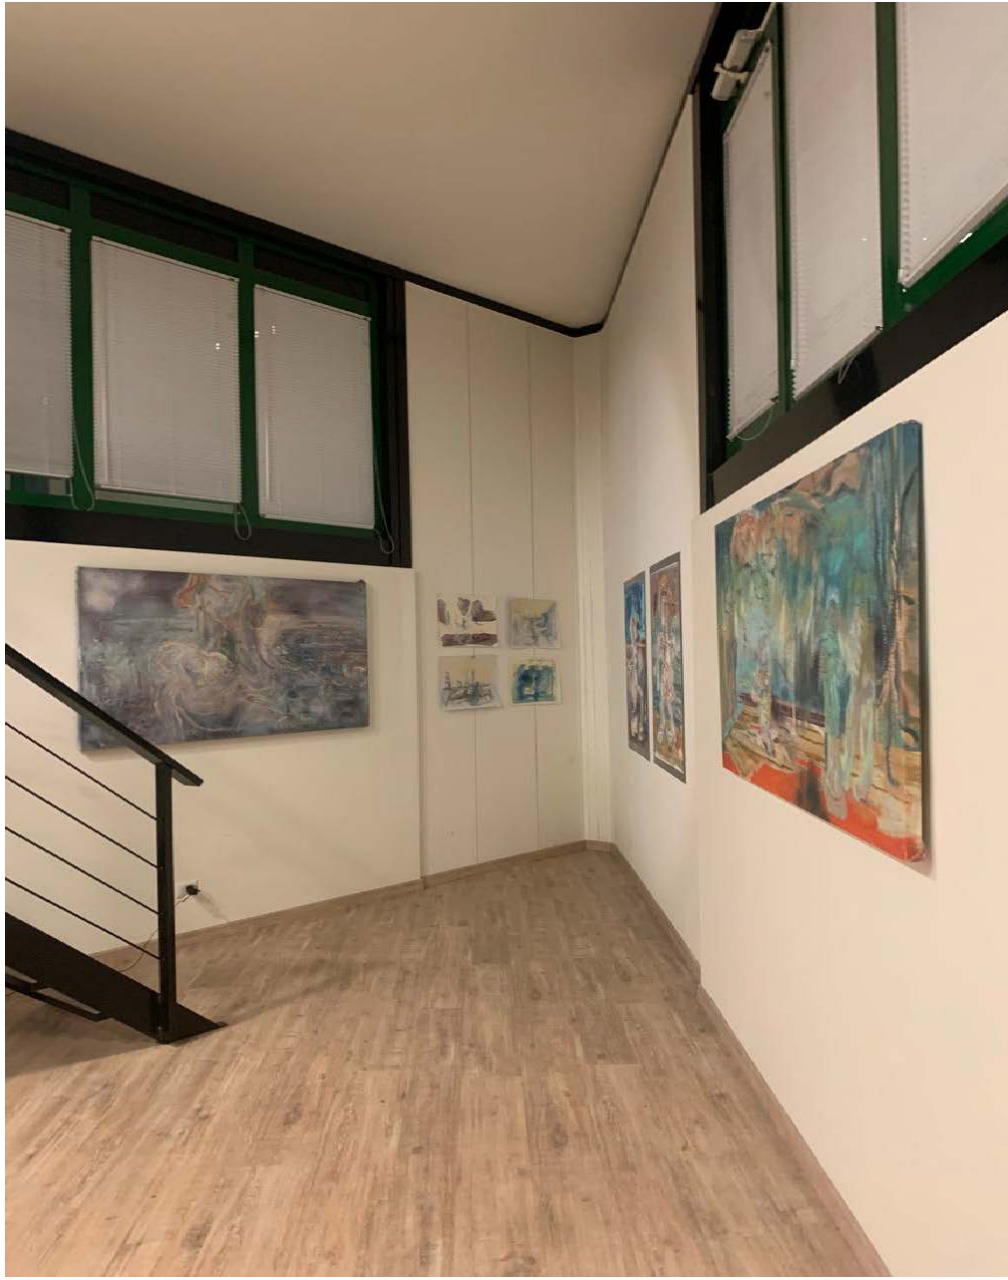

Large museum exhibition dedicated to Japanese manga culture presented within the historical environment of the National Archaeological Museum.

ROLE

Exhibition production assistant | Installation preparation | Spatial coordination

CONTEMPORARY ART EXHIBITION
MILAN, 2022

Independent contemporary art exhibition presenting a solo project by artist Cheo Loss.

ROLE

Curator | Exhibition organization | Public event coordination

IMMERSIVE | INSTALLATION

Music festival

SAINT PETERSBURG, 2019

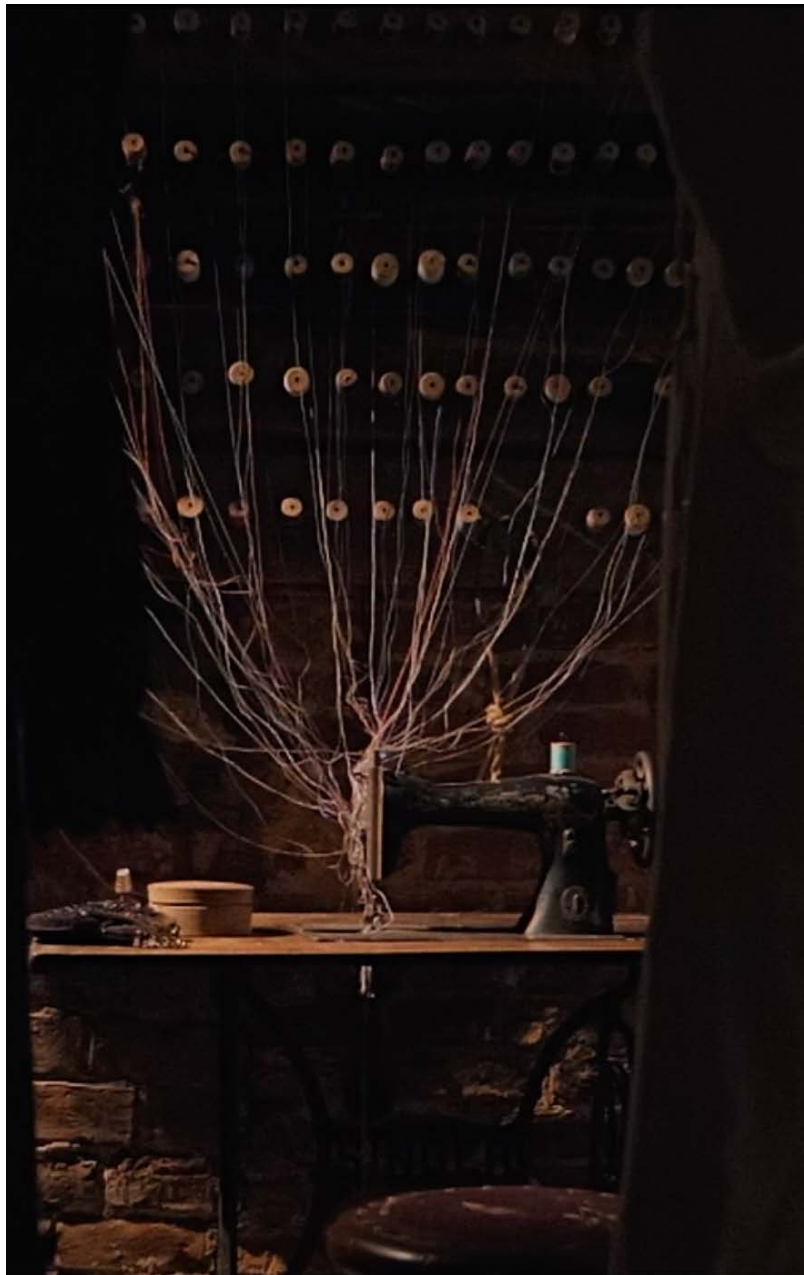

Temporary spatial installation created for an international ecological music festival with more than 10,000 visitors. The installation explored light, reflection and spatial perception using mirrors and projections.

ROLE

Installation design | Production | Construction and installation

FACELESS

Immersive Theatre Production
Saint Petersburg, 2017–2018

Large immersive theatre staged in a historical mansion where visitors move through multiple narrative spaces.

ROLE

Stage production | Spatial coordination | Prop management

BVLGARI SERPENTI

VR Experience
National Etruscan Museum
Rome, 2025

Interactive VR experience presented as part of the BVLGARI Serpenti exhibition.
The installation allowed visitors to explore digital environments inspired by the brand’s iconic design.

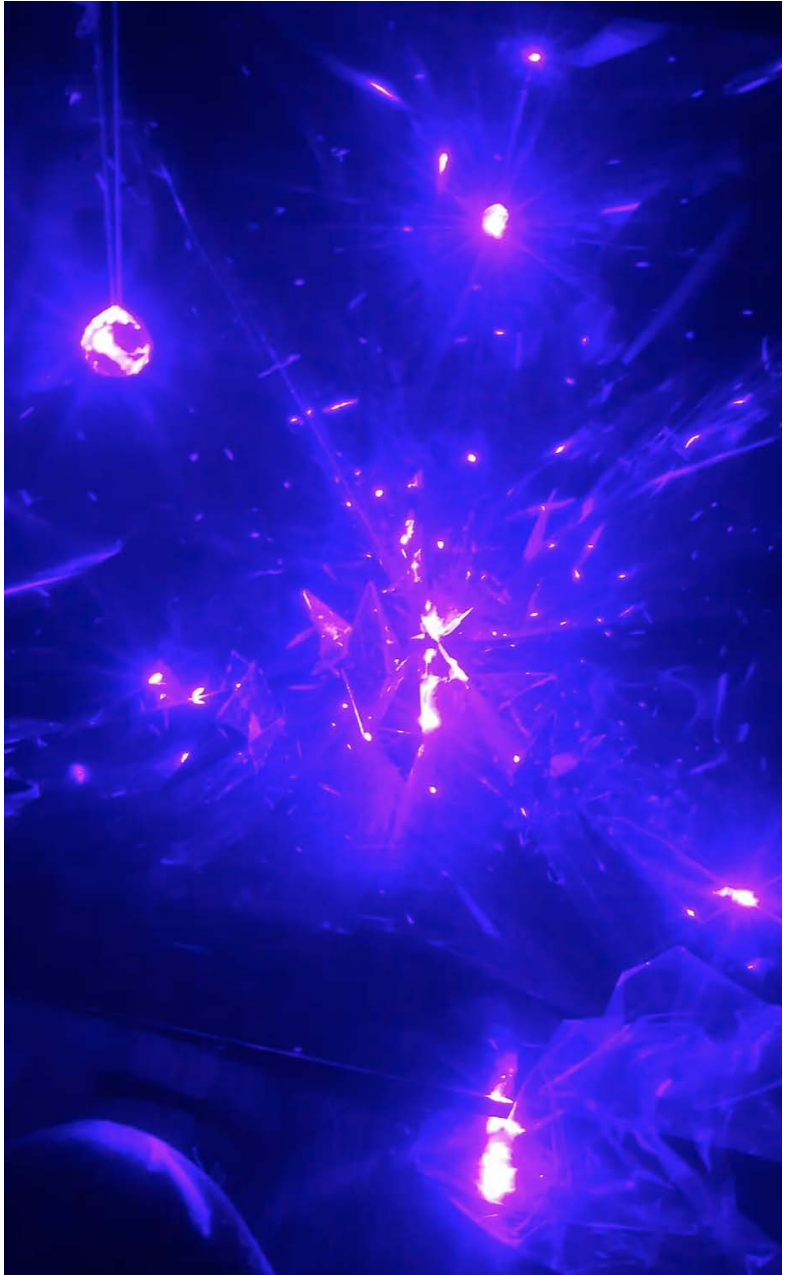

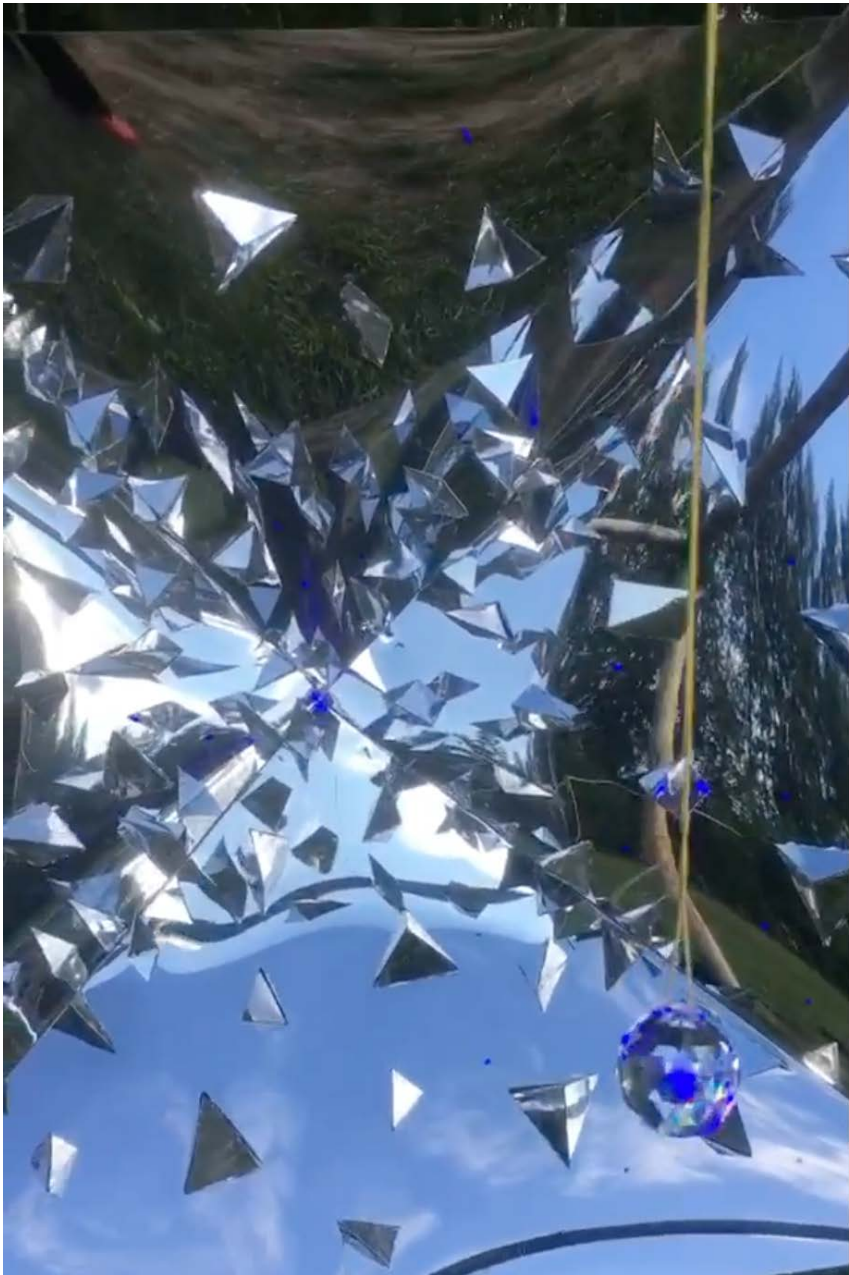

ROLE

VR experience supervision | Visitor interaction | Technical support

LIGHT | EVENT | RETAIL

LAST FLOWER

Lighting Installation
Saint Petersburg, 2021

Spatial lighting installation developed as scenographic element for a music venue.

ROLE

Lighting installation design | Production | Spatial setup

GOD OF COFFEE

15

Cultural Event
Milan, 2022

Art direction and spatial concept for a corporate event combining digital artworks and temporary installations.

ROLE

Logistics | Art direction | Spatial organization | Technical execution

construction

ARCHITECTURAL PROJECTS

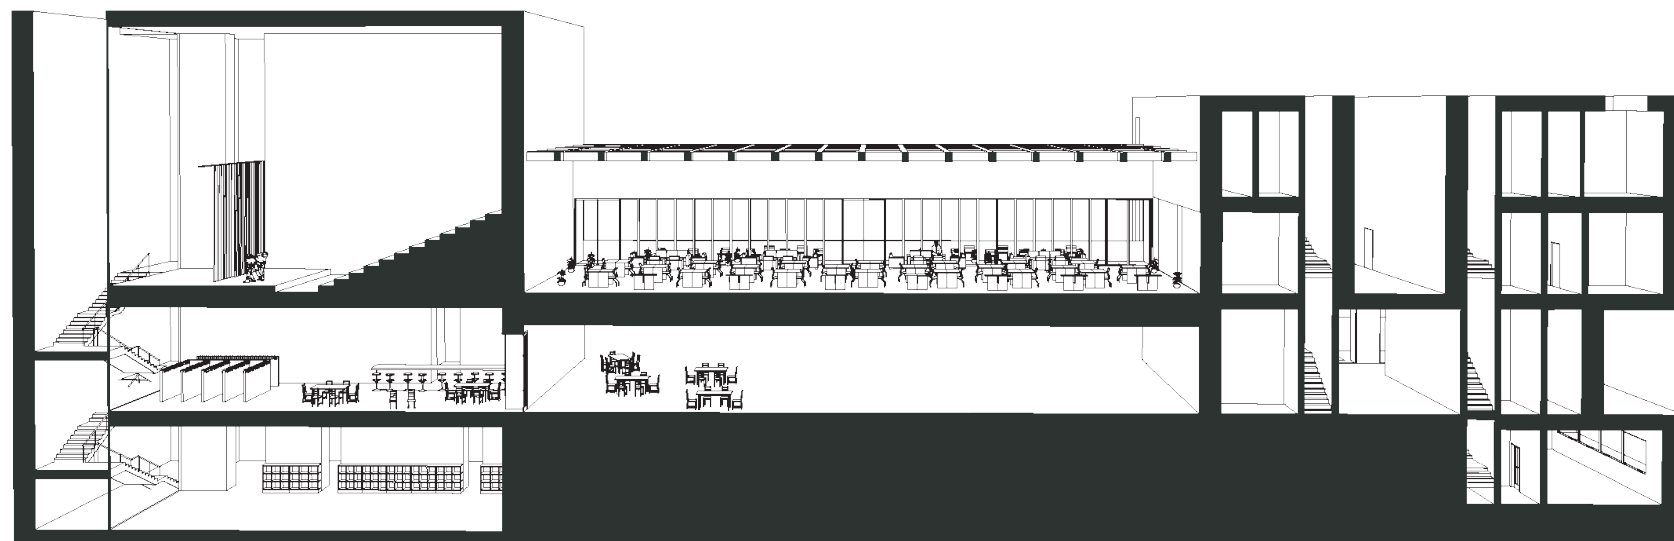

PERFORMING ART CENTER

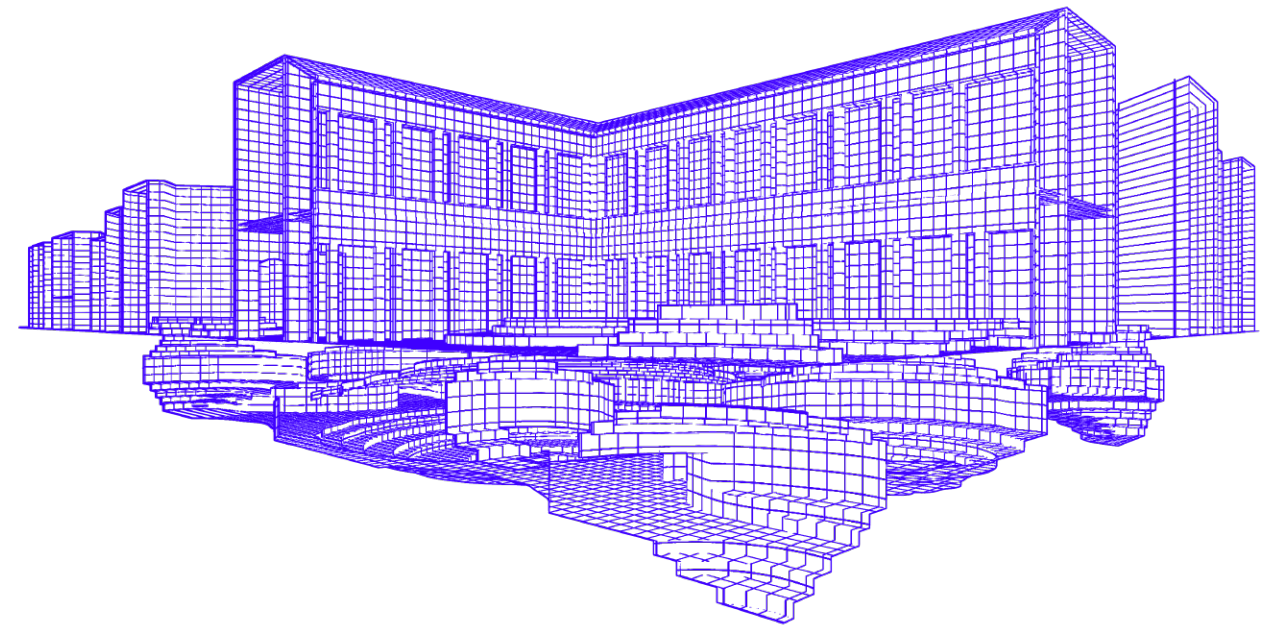

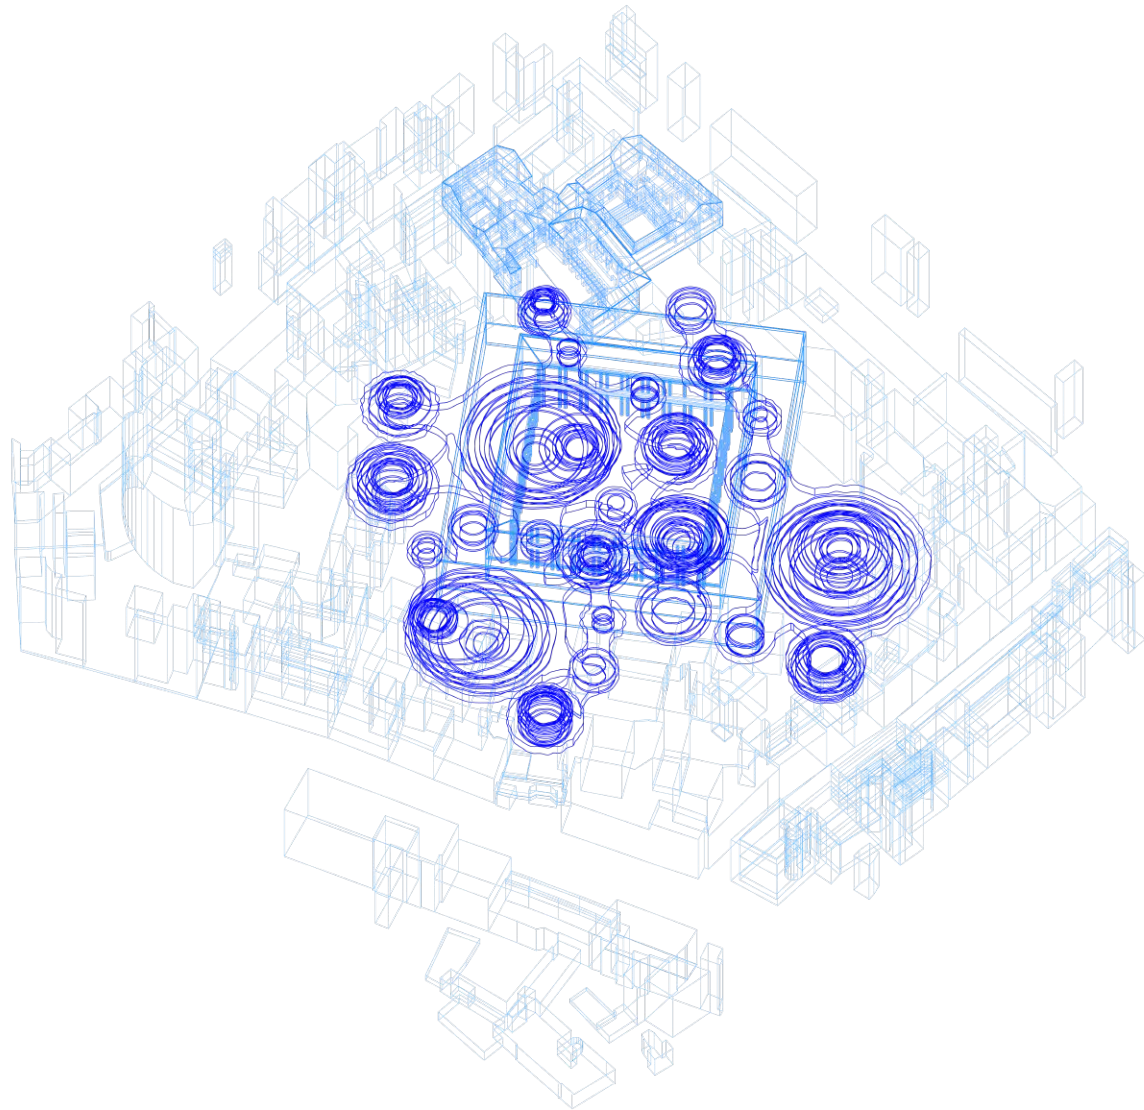

2023

18

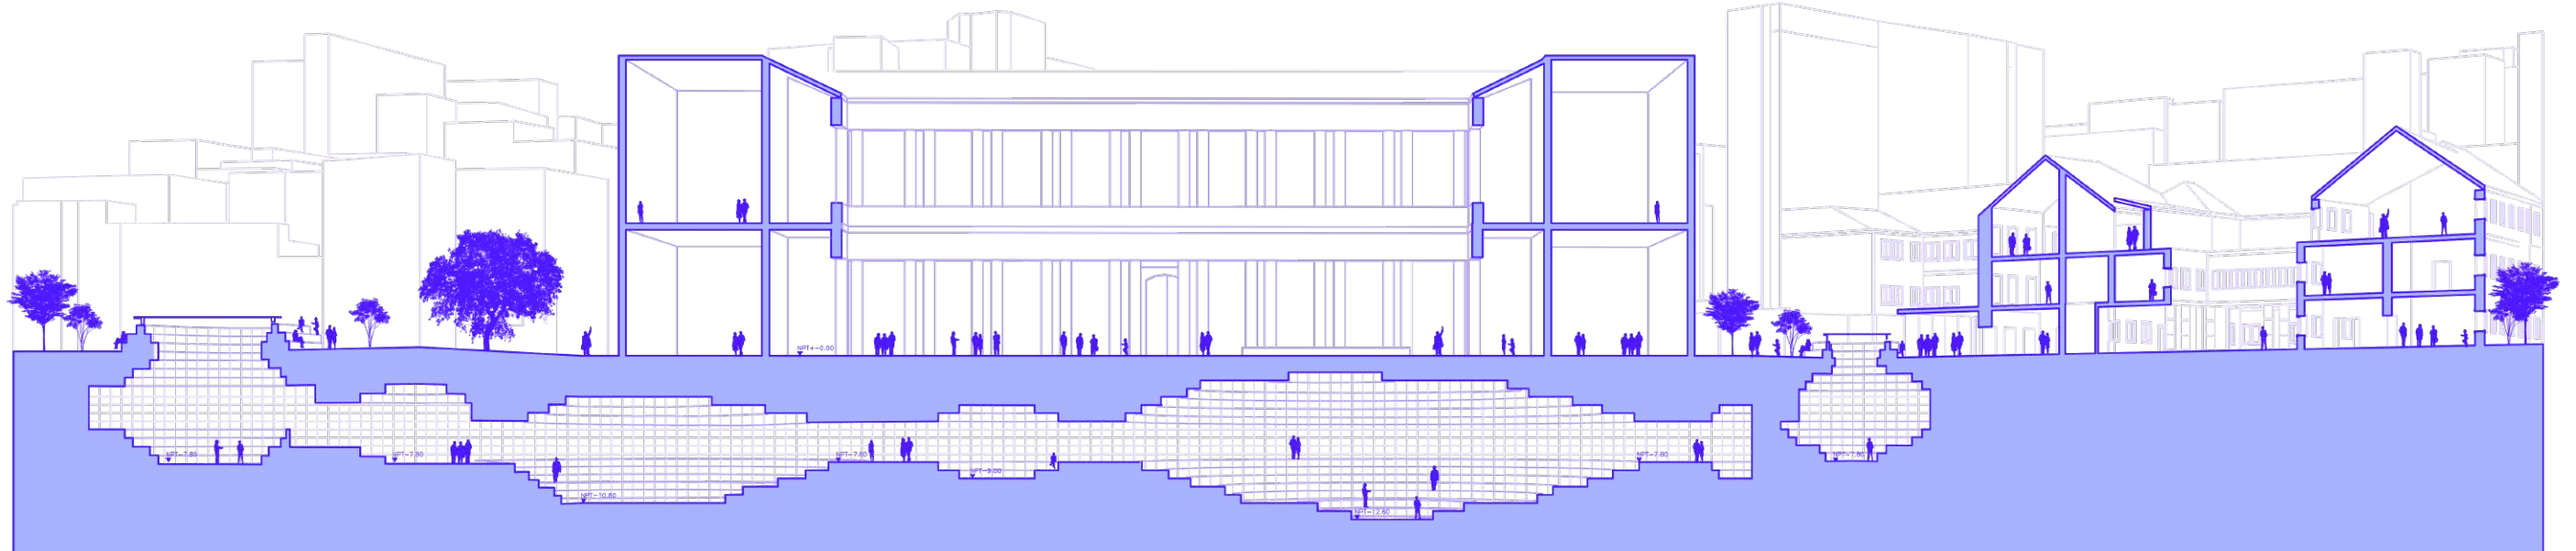

Architectural proposal for a multifunctional cultural center combining theatre spaces, workshops and public areas for students and visitors. The project explores spatial organization of performance environments and the relationship between stage, audience and public circulation.

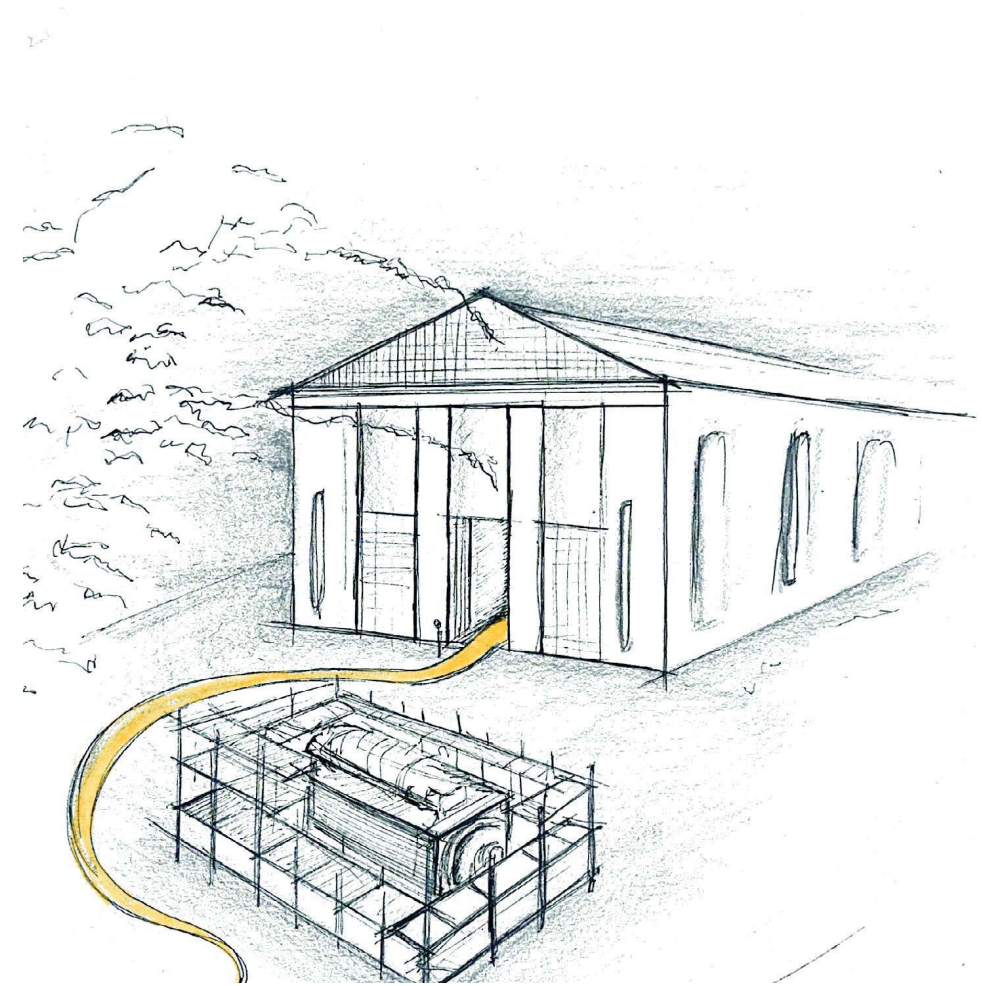

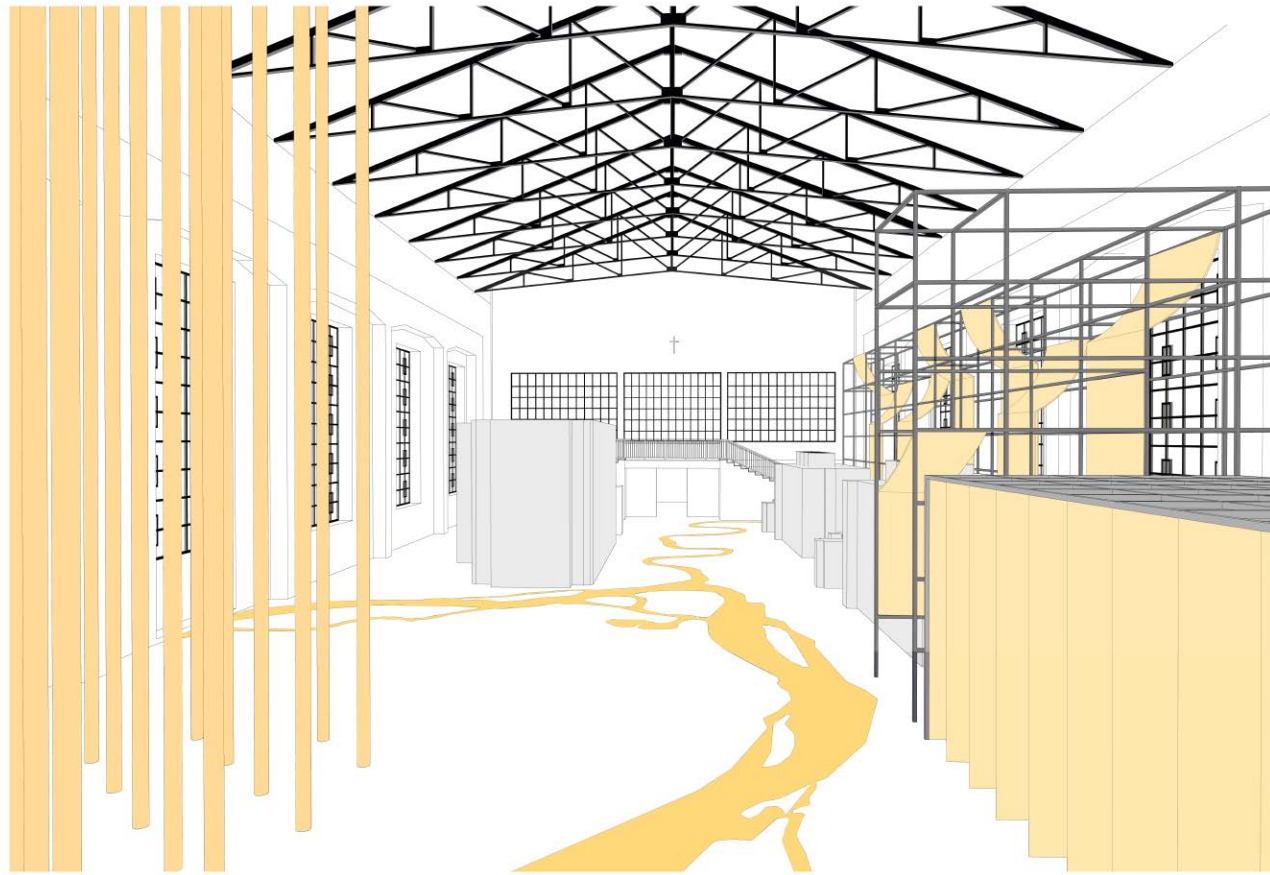

Concept design for an underground archive and research space connected to a fashion museum. The project proposes a modular system of interconnected archive rooms allowing the collection to grow over time while maintaining controlled storage conditions and visitor access.

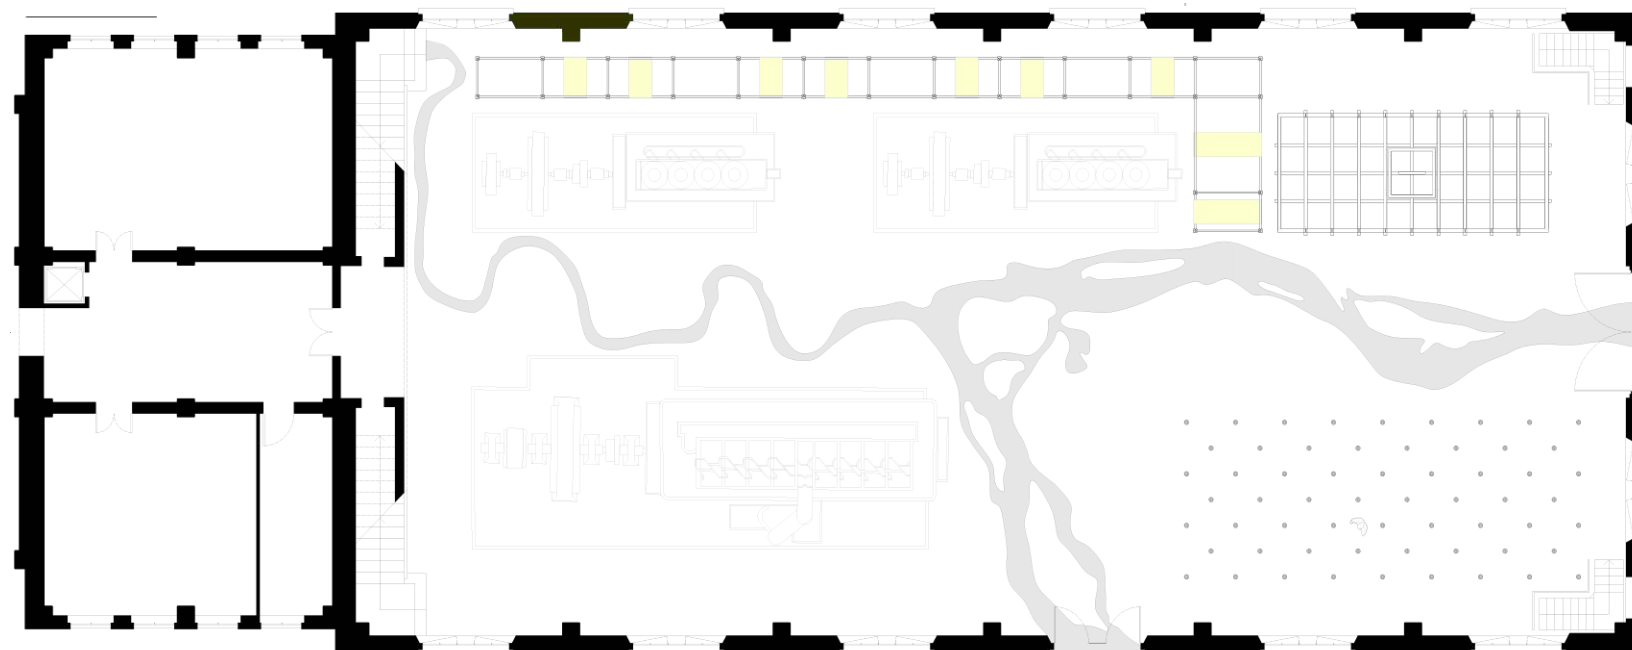

ECO MUSEUM

2024

20

Adaptive reuse of a historic power plant transformed into a cultural and educational center connected to the surrounding landscape. The project introduces flexible exhibition spaces and public areas, integrating architecture, environment and community activities.
